Sequential no. (sender): _____ Fertiliser type: _____
Date (sampling): _____ Sampler: _____

The test has only a limited value when no proper sampling has taken place. Please keep to the sampling instructions for mineral fertilisers; send approx. 500 g.

Scope of analysis: (please tick)

Single nutrient fertiliser:

- Nitrogen fertiliser** (total nitrogen)
(e.g. calcium ammonium nitrate, urea, UAN-solution, ammonium sulphate, ammonium sulphate saltpetre)
- Phosphate fertiliser** (P₂O₅-content)
(e.g. superphosphate, triple superphosphate)
- Potash fertiliser** (K₂O content)
(e.g. potash salt, Korn-Kali, potassium chloride, potassium sulphate)
- Calcium fertiliser** (alkaline substances, dry matter)
(e.g. carbonate of lime, burnt lime, carbonated lime)
- Magnesium limes content, dry matter** (CaO/CaCO₃ content, MgO/MgCO₃)
(e.g. carbonate of lime with magnesium, burnt lime with magnesium, slag lime, converter lime)

Multi-nutrient fertilizer:

- NP-fertiliser** (total N, P₂O₅ content)
(e.g. Diammonium phosphate, Monoammonium phosphate)
- PK-fertiliser** (P₂O₅ content, K₂O content)
(e.g. Phosphate potash)
- PK-fertiliser** (P₂O₅ content, K₂O content)
(e.g. Thomaskali)
- NPK-fertiliser** (total N, P₂O₅ content, K₂O content)
(e.g. NPK compound 12/12/17 + 2)

Additional tests:

- Magnesium** (digestion, total MgO)
- Sulphur** (digestion, total sulphur)
- Sieving / passing through DIN-sieve** (according to effort per fraction)
- Reactivity** (includes alkaline substances)

Further information from the contracting party:
